

October 2019

Dear Optum360 2019 HCPCS Level II Expert Customer:

The Centers for Medicare and Medicaid Services (CMS) made additional changes to the October 1, 2019 HCPCS Level II code set after the Optum360 HCPCS Level II Expert product update went to press.

Included below are the changes that can be marked in your book. Our customer service team is available should there be any questions by calling 1.800.464.3649, option 1.

Thank you for your patience and support of our ongoing effort to deliver quality products. We value you as an Optum360 customer.

Sincerely,

Optum360

www.optum360coding.com

The following are changes effective October 1, 2019:

New codes

J0641 Injection, levoleucovorin, not otherwise specified, 0.5 mg

(Long descriptor was updated after our products went to press. The blue note beneath J0641 should be removed as well.)

J0642 Injection, levoleucovorin (Khapzory), 0.5 mg

Other Changes

C Code Section, page C Codes-24

C9043 Injection, levoleucovorin, 1 mg

(CMS originally deleted C9043 for the October 1, 2019 update; however, CMS has advised that this code is still active.)

Changes to Appendix 1 — Drug Table

FUSILEV	0.5 MG	IV	J0641	Remove entry from page Appendixes-11
---------	--------	----	-------	--------------------------------------

The following entries were marked as deletions. Please note that these entries are still active:

FUSILEV	1 MG	INJ	C9043	(page Appendixes-11)
LEVOLEUCOVORIN	1 MG	INJ	C9043	(page Appendixes-16)
