

CODE WITH PRECISION

WEBINAR SERIES

Upcoming schedule

Valuable EncoderPro.com Enhancements
additional CPT[®] content, improved access to CMS
content and more with EncoderPro.com

April 28 | 1 p.m. ET | 30 minutes

Frequently, EncoderPro.com is updated with relevant content. With this recent release, we added valuable content, including more CPT[®] content from Optum360 print books, improved access to CMS content, including QPP measures, improved E/M coding guidance and more. Join this session to learn how recent enhancements can improve your coding.

Popular Cross Coding Made Easier
in EncoderPro.com

May 27 | 1 p.m. ET | 30 minutes

One of the most popular content sets accessed is cross coding material. Cross coding can be challenging — let us show you ways to make it easier in EncoderPro.com. In this webinar, we will highlight the cross coding content available and explore some specific examples in CPT[®] to ICD-10-CM to see how to access the content.

**Quicker Access to the New
2021 ICD-10-CM Codes**
by using EncoderPro.com

August 25 | 1 p.m. ET | 30 minutes

Be prepared for the upcoming 2021 ICD-10-CM code changes and edits on day one. In this webinar, we will walk through the overall 2021 ICD-10-CM code changes and various ways within EncoderPro.com that you can view future codes, newly active and deleted codes, edits and lay descriptions.

**Improve Coding Accuracy and Impact Coding-
Related Denials**
using EncoderPro.com

September 15 | 1 p.m. ET | 30 minutes

EncoderPro.com houses various tools to help improve first-pass claim payment. This webinar will review the Auditor Desk Reference and Evaluation and Management Coding Advisor print book content, compliance editor tool and more, in order to impact your practice's claims process.

**Quicker Access to the New 2021 ICD-10-CM/
PCS and DRG Codes**
by using RevenueCyclePro.com

September 22 | 1 p.m. ET | 30 minutes

Be prepared for the upcoming 2021 ICD-10-CM/PCS and DRG code changes and edits on day one. In this webinar, we will walk through the overall 2021 ICD-10-CM/PCS and DRG code changes and various ways within RevenueCyclePro.com that you can view future codes, newly active and deleted codes, edits and lay descriptions.

Take the Complexities out of DRGs
with RevenueCyclePro.com

September 24 | 1 p.m. ET | 30 minutes

Speed through DRG assignment by accessing supportive content within RevenueCyclePro.com. In this webinar, we will explore the depth of resources available, including optimizing tips, grouping tools, decision trees, DRG data content and reimbursement.

Navigating Role-Based Code Review Content in EncoderPro.com for Payers

October 13 | 1 p.m. ET | 30 minutes

EncoderPro.com for Payers includes access to troves of coding content that can be used for code review. This webinar dives into various payer organization roles and reviews the relevant content for those roles. Additionally, we will highlight coding information specific to professional and facility coding.

2021 Changes to E/M Office and Other Outpatient Services Coding and Guidelines with the EncoderPro.com Plus Add-on

November 10 | 1 p.m. ET | 30 minutes

In an effort to reduce administrative burden and to decrease unnecessary documentation in patient care, CMS and the CPT® Editorial Panel finalized changes to the most reported E/M codes (99201-99215). We'll review these changes and see how EncoderPro.com can help your team meet the challenges of mastering these new code changes and coding guidelines.

Efficiently Prepare Your Chargemaster for 2021 Coding Updates using Enterprise ChargemasterExpert.com

December 3 | 1 p.m. ET | 30 minutes

Preparing for annual coding updates can be a daunting task with information needed from multiple sources. See how Enterprise ChargemasterExpert.com can assist you in quickly identifying future 2021 new, revised and deleted codes. This allows code changes to be implemented by January 1 to minimize compliance risk, claims edits and denied claims.

Immediate Access to a Full Library of 2021 CPT® Code Content with the AMA CPT® Content Module Add-on

December 15 | 1 p.m. ET | 30 minutes

Be ready for 2021 CPT® code changes when they are published, directly from the American Medical Association (AMA). Join this webinar as we review specific coding scenarios showcasing the proposed changes within our online coding tools and AMA CPT® Content Module add-on.
