Introduction

Organization of HCPCS

The Optum360 2021 HCPCS Level II contains mandated changes and new codes for use as of January 1, 2021. Deleted codes have also been indicated and cross-referenced to active codes when possible. New codes have been added to the appropriate sections, eliminating the time-consuming step of looking in two places for a code. However, keep in mind that the information in this book is a reproduction of the 2021 HCPCS; additional information on coverage issues may have been provided to Medicare contractors after publication. All contractors periodically update their systems and records throughout the year. If this book does not agree with your contractor, it is either because of a mid-year update or correction, or a specific local or regional coverage policy.

Index

Because HCPCS is organized by code number rather than by service or supply name, the index enables the coder to locate any code without looking through individual ranges of codes. Just look up the medical or surgical supply, service, orthotic, or prosthetic in question to find the

appropriate codes. This index also refers to many of the brand names by which these items are known.

Table of Drugs and Biologicals

The brand names of drugs and biologicals listed are examples only and may not include all products available for that type. The table lists HCPCS codes from any available section including A codes, C codes, J codes, S codes, and Q codes under brand and generic names with amount, route of administration, and code numbers. While every effort is made to make the table comprehensive, it is not all-inclusive.

Color-coded Coverage Instructions

The Optum360 HCPCS Level II book provides colored symbols for each coverage and reimbursement instruction. A legend to these symbols is provided on the bottom of each two-page spread.

HOW TO USE OPTUM360 HCPCS LEVEL II BOOKS

Green Color Bar—Special Coverage Instructions

A green bar for “special coverage instructions” over a code means that special coverage instructions apply to that code. These special instructions are also typically given in the form of Medicare Internet Only Manuals (IOM) reference numbers.

A4336 Incontinence supply, urethral insert, any type, each

Yellow Color Bar—Carrier Discretion

Issues that are left to “carrier discretion” are covered with a yellow bar. Contact the carrier for specific coverage information on those codes.

A9581 Injection, gadoxetate disodium, 1 ml

Pink Color Bar—Not Covered by or Invalid for Medicare

Codes that are not covered by or are invalid for Medicare are covered by a pink bar. The pertinent Medicare Internet-only Manuals (IOMs) reference numbers are also given explaining why a particular code is not covered. These numbers refer to the appendixes, where the Medicare references are listed.

A4264 Permanent implantable contraceptive intratubal occlusion device(s) and delivery system

Codes in the Optum360 HCPCS Level II follow the AMA CPT book conventions to indicate new, revised, and deleted codes.

- A black circle (●) precedes a new code.
- A black triangle (▲) precedes a code with revised terminology or rules.
- A circle (○) precedes a recycled/reinstated code.
- Codes deleted from the current active codes appear with a strike-out.

- **S0013** Esketamine, nasal spray, 1 mg
- ▲ **Q4176** Neopatch or Therion, per sq cm
- **G0088** Professional services, initial visit, for the administration of anti-infective, pain management, chelation, pulmonary hypertension, inotropic, or other intravenous infusion drug or biological (excluding chemotherapy or other highly complex drug or biological) for each infusion drug administration calendar day in the individual's home, each 15 min
- ~~**C9055**~~ Injection, brexanolone, 1mg

Quantity Alert

Many codes in HCPCS report quantities that may not coincide with quantities available in the marketplace. For instance, a HCPCS code for an ostomy pouch with skin barrier reports each pouch, but the product is generally sold in a package of 10; “10” must be indicated in the quantity box on the CMS claim form to ensure proper reimbursement. This symbol indicates that care should be taken to verify quantities in this code. These quantity alerts do not represent Medicare Unlikely Edits (MUEs) and should not be used for MUEs.

 **J0120** Injection, tetracycline, up to 250 mg

A			
<p>Abdomen/abdominal dressing holder/binder, A4461, A4463 pad, low profile, L1270</p> <p>Abduction control, each, L2624 pillow, E1399 rotation bar, foot, L3140-L3170</p> <p>Ablation robotic, waterjet, - A4211** Supplies for self-administered injections N
When a drug that is usually injected by the patient (e.g., insulin or calcitonin) is injected by the physician, it is excluded from Medicare coverage unless administered in an emergency situation (e.g., diabetic coma).
- A4212** Noncoring needle or stylet with or without catheter N
- A4213** Syringe, sterile, 20 cc or greater, each N
- A4215** Needle, sterile, any size, each N
- A4216** Sterile water, saline and/or dextrose, diluent/flush, 10 ml N
- A4217** Sterile water/saline, 500 ml N (AU)
CMS: 100-04,20,30,9
- A4218** Sterile saline or water, metered dose dispenser, 10 ml N
- A4220** Refill kit for implantable infusion pump N
- A4221** Supplies for maintenance of noninsulin drug infusion catheter, per week (list drugs separately) N
- A4222** Infusion supplies for external drug infusion pump, per cassette or bag (list drugs separately) N
- A4223** Infusion supplies not used with external infusion pump, per cassette or bag (list drugs separately) N
- A4224** Supplies for maintenance of insulin infusion catheter, per week N
- A4225** Supplies for external insulin infusion pump, syringe type cartridge, sterile, each N
- A4226** Supplies for maintenance of insulin infusion pump with dosage rate adjustment using therapeutic continuous glucose sensing, per week N
- A4230** Infusion set for external insulin pump, nonneedle cannula type N
Covered by some commercial payers as ongoing supply to preauthorized pump.
- A4231** Infusion set for external insulin pump, needle type N
Covered by some commercial payers as ongoing supply to preauthorized pump.
- A4232** Syringe with needle for external insulin pump, sterile, 3 cc E
Covered by some commercial payers as ongoing supply to preauthorized pump.

Batteries

- A4233** Replacement battery, alkaline (other than J cell), for use with medically necessary home blood glucose monitor owned by patient, each E (NU)
- A4234** Replacement battery, alkaline, J cell, for use with medically necessary home blood glucose monitor owned by patient, each E (NU)
- A4235** Replacement battery, lithium, for use with medically necessary home blood glucose monitor owned by patient, each E (NU)
- A4236** Replacement battery, silver oxide, for use with medically necessary home blood glucose monitor owned by patient, each E (NU)

Other Supplies

- A4244** Alcohol or peroxide, per pint N
- A4245** Alcohol wipes, per box N
- A4246** Betadine or pHisoHex solution, per pint N
- A4247** Betadine or iodine swabs/wipes, per box N

- A4248** Chlorhexidine containing antiseptic, 1 ml N
- A4250** Urine test or reagent strips or tablets (100 tablets or strips) E
CMS: 100-02,15,110

Dipstick urinalysis: The strip is dipped and color-coded squares are read at timed intervals (e.g., pH immediately; ketones at 15 seconds, etc.). Results are compared against a reference chart

- A4252** Blood ketone test or reagent strip, each E
- A4253** Blood glucose test or reagent strips for home blood glucose monitor, per 50 strips N (NU)
Medicare covers glucose strips for diabetic patients using home glucose monitoring devices prescribed by their physicians.
- A4255** Platforms for home blood glucose monitor, 50 per box N
Some Medicare contractors cover monitor platforms for diabetic patients using home glucose monitoring devices prescribed by their physicians. Some commercial payers also provide this coverage to noninsulin dependent diabetics.
- A4256** Normal, low, and high calibrator solution/chips N
Some Medicare contractors cover calibration solutions or chips for diabetic patients using home glucose monitoring devices prescribed by their physicians. Some commercial payers also provide this coverage to noninsulin dependent diabetics.
- A4257** Replacement lens shield cartridge for use with laser skin piercing device, each E
AHA: 1Q, '02, 5
- A4258** Spring-powered device for lancet, each N
Some Medicare contractors cover lancing devices for diabetic patients using home glucose monitoring devices prescribed by their physicians. Medicare jurisdiction: DME regional contractor. Some commercial payers also provide this coverage to noninsulin dependent diabetics.
- A4259** Lancets, per box of 100 N
Medicare covers lancets for diabetic patients using home glucose monitoring devices prescribed by their physicians. Medicare jurisdiction: DME regional contractor. Some commercial payers also provide this coverage to noninsulin dependent diabetics.
- A4261** Cervical cap for contraceptive use M
- A4262** Temporary, absorbable lacrimal duct implant, each N
Always report concurrent to the implant procedure.
- A4263** Permanent, long-term, nondissolvable lacrimal duct implant, each N
Always report concurrent to the implant procedure.
- A4264** Permanent implantable contraceptive intratubal occlusion device(s) and delivery system M
- A4265** Paraffin, per pound N
- A4266** Diaphragm for contraceptive use M
- A4267** Contraceptive supply, condom, male, each O

L0491 Thoracic-lumbar-sacral orthosis (TLSO), sagittal-coronal control, modular segmented spinal system, two rigid plastic shells, posterior extends from the sacrococcygeal junction and terminates just inferior to the scapular spine, anterior extends from the symphysis pubis to the xiphoid, soft liner, restricts gross trunk motion in the sagittal and coronal planes, lateral strength is provided by overlapping plastic and stabilizing closures, includes straps and closures, prefabricated, includes fitting and adjustment A b

L0492 Thoracic-lumbar-sacral orthosis (TLSO), sagittal-coronal control, modular segmented spinal system, three rigid plastic shells, posterior extends from the sacrococcygeal junction and terminates just inferior to the scapular spine, anterior extends from the symphysis pubis to the xiphoid, soft liner, restricts gross trunk motion in the sagittal and coronal planes, lateral strength is provided by overlapping plastic and stabilizing closures, includes straps and closures, prefabricated, includes fitting and adjustment A b

Cervical-Thoracic-Lumbar-Sacral Orthoses

L0621 Sacroiliac orthosis, flexible, provides pelvic-sacral support, reduces motion about the sacroiliac joint, includes straps, closures, may include pendulous abdomen design, prefabricated, off-the-shelf A b

L0622 Sacroiliac orthosis, flexible, provides pelvic-sacral support, reduces motion about the sacroiliac joint, includes straps, closures, may include pendulous abdomen design, custom fabricated A b

L0623 Sacroiliac orthosis, provides pelvic-sacral support, with rigid or semi-rigid panels over the sacrum and abdomen, reduces motion about the sacroiliac joint, includes straps, closures, may include pendulous abdomen design, prefabricated, off-the-shelf A b

L0624 Sacroiliac orthosis, provides pelvic-sacral support, with rigid or semi-rigid panels placed over the sacrum and abdomen, reduces motion about the sacroiliac joint, includes straps, closures, may include pendulous abdomen design, custom fabricated A b

L0625 Lumbar orthosis, flexible, provides lumbar support, posterior extends from L-1 to below L-5 vertebra, produces intracavitary pressure to reduce load on the intervertebral discs, includes straps, closures, may include pendulous abdomen design, shoulder straps, stays, prefabricated, off-the-shelf A b

L0626 Lumbar orthosis, sagittal control, with rigid posterior panel(s), posterior extends from L-1 to below L-5 vertebra, produces intracavitary pressure to reduce load on the intervertebral discs, includes straps, closures, may include padding, stays, shoulder straps, pendulous abdomen design, prefabricated item that has been trimmed, bent, molded, assembled, or otherwise customized to fit a specific patient by an individual with expertise A b

L0627 Lumbar orthosis, sagittal control, with rigid anterior and posterior panels, posterior extends from L-1 to below L-5 vertebra, produces intracavitary pressure to reduce load on the intervertebral discs, includes straps, closures, may include padding, shoulder straps, pendulous abdomen design, prefabricated item that has been trimmed, bent, molded, assembled, or otherwise customized to fit a specific patient by an individual with expertise A b

L0628 Lumbar-sacral orthosis (LSO), flexible, provides lumbo-sacral support, posterior extends from sacrococcygeal junction to T-9 vertebra, produces intracavitary pressure to reduce load on the intervertebral discs, includes straps, closures, may include stays, shoulder straps, pendulous abdomen design, prefabricated, off-the-shelf A b

L0629 Lumbar-sacral orthosis (LSO), flexible, provides lumbo-sacral support, posterior extends from sacrococcygeal junction to T-9 vertebra, produces intracavitary pressure to reduce load on the intervertebral discs, includes straps, closures, may include stays, shoulder straps, pendulous abdomen design, custom fabricated A b

L0630 Lumbar-sacral orthosis (LSO), sagittal control, with rigid posterior panel(s), posterior extends from sacrococcygeal junction to T-9 vertebra, produces intracavitary pressure to reduce load on the intervertebral discs, includes straps, closures, may include padding, stays, shoulder straps, pendulous abdomen design, prefabricated item that has been trimmed, bent, molded, assembled, or otherwise customized to fit a specific patient by an individual with expertise A b

L0631 Lumbar-sacral orthosis (LSO), sagittal control, with rigid anterior and posterior panels, posterior extends from sacrococcygeal junction to T-9 vertebra, produces intracavitary pressure to reduce load on the intervertebral discs, includes straps, closures, may include padding, shoulder straps, pendulous abdomen design, prefabricated item that has been trimmed, bent, molded, assembled, or otherwise customized to fit a specific patient by an individual with expertise A b

L0632 Lumbar-sacral orthosis (LSO), sagittal control, with rigid anterior and posterior panels, posterior extends from sacrococcygeal junction to T-9 vertebra, produces intracavitary pressure to reduce load on the intervertebral discs, includes straps, closures, may include padding, shoulder straps, pendulous abdomen design, custom fabricated A b

L0633 Lumbar-sacral orthosis (LSO), sagittal-coronal control, with rigid posterior frame/panel(s), posterior extends from sacrococcygeal junction to T-9 vertebra, lateral strength provided by rigid lateral frame/panels, produces intracavitary pressure to reduce load on intervertebral discs, includes straps, closures, may include padding, stays, shoulder straps, pendulous abdomen design, prefabricated item that has been trimmed, bent, molded, assembled, or otherwise customized to fit a specific patient by an individual with expertise A b

L0634 Lumbar-sacral orthosis (LSO), sagittal-coronal control, with rigid posterior frame/panel(s), posterior extends from sacrococcygeal junction to T-9 vertebra, lateral strength provided by rigid lateral frame/panel(s), produces intracavitary pressure to reduce load on intervertebral discs, includes straps, closures, may include padding, stays, shoulder straps, pendulous abdomen design, custom fabricated A b

L0635 Lumbar-sacral orthosis (LSO), sagittal-coronal control, lumbar flexion, rigid posterior frame/panel(s), lateral articulating design to flex the lumbar spine, posterior extends from sacrococcygeal junction to T-9 vertebra, lateral strength provided by rigid lateral frame/panel(s), produces intracavitary pressure to reduce load on intervertebral discs, includes straps, closures, may include padding, anterior panel, pendulous abdomen design, prefabricated, includes fitting and adjustment A b

L0636 Lumbar-sacral orthosis (LSO), sagittal-coronal control, lumbar flexion, rigid posterior frame/panels, lateral articulating design to flex the lumbar spine, posterior extends from sacrococcygeal junction to T-9 vertebra, lateral strength provided by rigid lateral frame/panels, produces intracavitary pressure to reduce load on intervertebral discs, includes straps, closures, may include padding, anterior panel, pendulous abdomen design, custom fabricated A b

S0169	Calcitrol, 0.25 mcg Use this code for Calcijex.	<input checked="" type="checkbox"/>	S0250	Comprehensive geriatric assessment and treatment planning performed by assessment team	<input checked="" type="checkbox"/>
S0170	Anastrozole, oral, 1 mg Use this code for Arimidex.	<input checked="" type="checkbox"/>	S0255	Hospice referral visit (advising patient and family of care options) performed by nurse, social worker, or other designated staff CMS: 100-04,11,10	<input checked="" type="checkbox"/>
S0171	Injection, bumetanide, 0.5 mg Use this code for Bumex.	<input checked="" type="checkbox"/>	S0257	Counseling and discussion regarding advance directives or end of life care planning and decisions, with patient and/or surrogate (list separately in addition to code for appropriate evaluation and management service)	<input checked="" type="checkbox"/>
S0172	Chlorambucil, oral, 2 mg Use this code for Leukeran.	<input checked="" type="checkbox"/>	S0260	History and physical (outpatient or office) related to surgical procedure (list separately in addition to code for appropriate evaluation and management service)	<input checked="" type="checkbox"/>
S0174	Dolasetron mesylate, oral 50 mg (for circumstances falling under the Medicare statute, use Q0180) Use this code for Anzemet.	<input checked="" type="checkbox"/>	S0265	Genetic counseling, under physician supervision, each 15 minutes	<input checked="" type="checkbox"/>
S0175	Flutamide, oral, 125 mg Use this code for Eulexin.	<input checked="" type="checkbox"/>	S0270	Physician management of patient home care, standard monthly case rate (per 30 days)	<input checked="" type="checkbox"/>
S0176	Hydroxyurea, oral, 500 mg Use this code for Droxia, Hydrexa, Mylocel.	<input checked="" type="checkbox"/>	S0271	Physician management of patient home care, hospice monthly case rate (per 30 days)	<input checked="" type="checkbox"/>
S0177	Levamisole HCl, oral, 50 mg Use this code for Ergamisol.	<input checked="" type="checkbox"/>	S0272	Physician management of patient home care, episodic care monthly case rate (per 30 days)	<input checked="" type="checkbox"/>
S0178	Lomustine, oral, 10 mg Use this code for Ceenu.	<input checked="" type="checkbox"/>	S0273	Physician visit at member's home, outside of a capitation arrangement	<input checked="" type="checkbox"/>
S0179	Megestrol acetate, oral, 20 mg Use this code for Megace.	<input checked="" type="checkbox"/>	S0274	Nurse practitioner visit at member's home, outside of a capitation arrangement	<input checked="" type="checkbox"/>
S0182	Procarbazine HCl, oral, 50 mg Use this code for Matulane.	<input checked="" type="checkbox"/>	S0280	Medical home program, comprehensive care coordination and planning, initial plan	<input checked="" type="checkbox"/>
S0183	Prochlorperazine maleate, oral, 5 mg (for circumstances falling under the Medicare statute, use Q0164) Use this code for Compazine.	<input checked="" type="checkbox"/>	S0281	Medical home program, comprehensive care coordination and planning, maintenance of plan	<input checked="" type="checkbox"/>
S0187	Tamoxifen citrate, oral, 10 mg Use this code for Nolvadex.	<input checked="" type="checkbox"/>	S0285	Colonoscopy consultation performed prior to a screening colonoscopy procedure	<input checked="" type="checkbox"/>
S0189	Testosterone pellet, 75 mg	<input checked="" type="checkbox"/>	S0302	Completed early periodic screening diagnosis and treatment (EPSDT) service (list in addition to code for appropriate evaluation and management service)	<input checked="" type="checkbox"/>
S0190	Mifepristone, oral, 200 mg Use this code for Mifoprex 200 mg oral.	<input checked="" type="checkbox"/>	S0310	Hospitalist services (list separately in addition to code for appropriate evaluation and management service)	<input checked="" type="checkbox"/>
S0191	Misoprostol, oral, 200 mcg	<input checked="" type="checkbox"/>	S0311	Comprehensive management and care coordination for advanced illness, per calendar month	<input checked="" type="checkbox"/>
S0194	Dialysis/stress vitamin supplement, oral, 100 capsules	<input checked="" type="checkbox"/>	S0315	Disease management program; initial assessment and initiation of the program	<input checked="" type="checkbox"/>
S0197	Prenatal vitamins, 30-day supply	<input checked="" type="checkbox"/>	S0316	Disease management program, follow-up/reassessment	<input checked="" type="checkbox"/>
S0199	Medically induced abortion by oral ingestion of medication including all associated services and supplies (e.g., patient counseling, office visits, confirmation of pregnancy by HCG, ultrasound to confirm duration of pregnancy, ultrasound to confirm completion of abortion) except drugs	<input checked="" type="checkbox"/>	S0317	Disease management program; per diem	<input checked="" type="checkbox"/>
S0201	Partial hospitalization services, less than 24 hours, per diem	<input checked="" type="checkbox"/>	S0320	Telephone calls by a registered nurse to a disease management program member for monitoring purposes; per month	<input checked="" type="checkbox"/>
S0207	Paramedic intercept, nonhospital-based ALS service (nonvoluntary), nontransport	<input checked="" type="checkbox"/>	S0340	Lifestyle modification program for management of coronary artery disease, including all supportive services; first quarter/stage	<input checked="" type="checkbox"/>
S0208	Paramedic intercept, hospital-based ALS service (nonvoluntary), nontransport	<input checked="" type="checkbox"/>	S0341	Lifestyle modification program for management of coronary artery disease, including all supportive services; second or third quarter/stage	<input checked="" type="checkbox"/>
S0209	Wheelchair van, mileage, per mile	<input checked="" type="checkbox"/>	S0342	Lifestyle modification program for management of coronary artery disease, including all supportive services; fourth quarter/stage	<input checked="" type="checkbox"/>
S0215	Nonemergency transportation; mileage, per mile See also codes A0021-A0999 for transportation.	<input checked="" type="checkbox"/>	S0353	Treatment planning and care coordination management for cancer initial treatment	<input checked="" type="checkbox"/>
S0220	Medical conference by a physician with interdisciplinary team of health professionals or representatives of community agencies to coordinate activities of patient care (patient is present); approximately 30 minutes	<input checked="" type="checkbox"/>	S0354	Treatment planning and care coordination management for cancer established patient with a change of regimen	<input checked="" type="checkbox"/>
S0221	Medical conference by a physician with interdisciplinary team of health professionals or representatives of community agencies to coordinate activities of patient care (patient is present); approximately 60 minutes	<input checked="" type="checkbox"/>	S0390	Routine foot care; removal and/or trimming of corns, calluses and/or nails and preventive maintenance in specific medical conditions (e.g., diabetes), per visit	<input checked="" type="checkbox"/>

Appendix 1 — Table of Drugs and Biologicals

INTRODUCTION AND DIRECTIONS

The HCPCS 2021 Table of Drugs and Biologicals is designed to quickly and easily direct the user to drug names and their corresponding codes. Both generic and brand or trade names are alphabetically listed in the “Drug Name” column of the table. The associated A, C, J, K, Q, or S code is given only for the generic name of the drug. While every effort is made to make the table comprehensive, it is not all-inclusive.

The “Unit Per” column lists the stated amount for the referenced generic drug as provided by CMS. “Up to” listings are inclusive of all quantities up to and including the listed amount. All other listings are for the amount of the drug as listed. The editors recognize that the availability of some drugs in the quantities listed is dependent on many variables beyond the control of the clinical ordering clerk. The availability in your area of regularly used drugs in the most cost-effective quantities should be relayed to your third-party payers.

The “Route of Administration” column addresses the most common methods of delivering the referenced generic drug as described in current pharmaceutical literature. The official definitions for Level II drug codes generally describe administration other than by oral method. Therefore, with a handful of exceptions, oral-delivered options for most drugs are omitted from the Route of Administration column.

Intravenous administration includes all methods, such as gravity infusion, injections, and timed pushes. When several routes of administration are listed, the first listing is simply the first, or most common, method as described in current reference literature. The “VAR” posting denotes various routes of administration and is used for drugs that are commonly administered into joints, cavities, tissues, or topical applications, in addition to other parenteral administrations. Listings posted with “OTH” alert the user to other administration methods, such as suppositories or catheter injections.

Please be reminded that the Table of Drugs and Biologicals, as well as all HCPCS Level II national definitions and listings, constitutes a post-treatment medical reference for billing purposes only. Although the editors have exercised all normal precautions to ensure the accuracy of the table and related material, the use of any of this information to select medical treatment is entirely inappropriate. Do not code directly from the table. Refer to the tabular section for complete information.

See Appendix 3 for abbreviations.

Drug Name	Unit Per	Route	Code
10% LMD	500 ML	IV	J7100
4-FACTOR PROTHROMBRIN COMPLEX CONCENTRATE	1 IU	IV	C9132
5% DEXTROSE AND .45% NORMAL SALINE	1000 ML	IV	S5010
5% DEXTROSE IN LACTATED RINGERS	1000 CC	IV	J7121

AFSTYLA	1 I.U.	IV	J7210
AGALSIDASE BETA	1 MG	IV	J0180

Appendix 2 — Modifiers

A modifier is a two-position code that is added to the end of a code to clarify the services being billed. Modifiers provide a means by which a service can be altered without changing the procedure code. They add more information, such as the anatomical site, to the code. In addition, they help to eliminate the appearance of duplicate billing and unbundling. Modifiers are used to increase accuracy in reimbursement, coding consistency, editing, and to capture payment data.

A1	Dressing for one wound	BO	Orally administered nutrition, not by feeding tube
A2	Dressing for two wounds	BP	The beneficiary has been informed of the purchase and rental options and has elected to purchase the item
A3	Dressing for three wounds	BR	The beneficiary has been informed of the purchase and rental options and has elected to rent the item
A4	Dressing for four wounds	BU	The beneficiary has been informed of the purchase and rental options and after 30 days has not informed the supplier of his/her decision
A5	Dressing for five wounds	CA	Procedure payable only in the inpatient setting when performed emergently on an outpatient who expires prior to admission
A6	Dressing for six wounds	CC	Procedure code change (use CC when the procedure code submitted was changed either for administrative reasons or because an incorrect code was filed)
A7	Dressing for seven wounds	CD	AMCC test has been ordered by an ESRD facility or MCP physician that is part of the composite rate and is not separately billable
A8	Dressing for eight wounds	CE	AMCC test has been ordered by an ESRD facility or MCP physician that is a composite rate test but is beyond the normal frequency covered under the rate and is separately reimbursable based on medical necessity
A9	Dressing for nine or more wounds	CF	AMCC test has been ordered by an ESRD facility or MCP physician that is not part of the composite rate and is separately billable
AA	Anesthesia services performed personally by anesthesiologist	CG	Policy criteria applied
AD	Medical supervision by a physician: more than four concurrent anesthesia procedures	CH	Zero percent impaired, limited or restricted
AE	Registered dietician	CI	At least 1 percent but less than 20 percent impaired, limited or restricted
AF	Specialty physician	CJ	At least 20 percent but less than 40 percent impaired, limited or restricted
AG	Primary physician	CK	At least 40 percent but less than 60 percent impaired, limited or restricted
AH	Clinical psychologist	CL	At least 60 percent but less than 80 percent impaired, limited or restricted
AI	Principal physician of record	CM	At least 80 percent but less than 100 percent impaired, limited or restricted
AJ	Clinical social worker	CN	100 percent impaired, limited or restricted
AK	Nonparticipating physician	CO	Outpatient occupational therapy services furnished in whole or in part by an occupational therapy assistant
AM	Physician, team member service	CQ	Outpatient physical therapy services furnished in whole or in part by a physical therapist assistant
AO	Alternate payment method declined by provider of service	CR	Catastrophe/disaster related
AP	Determination of refractive state was not performed in the course of diagnostic ophthalmological examination	CS	Cost-sharing waived for specified COVID-19 testing-related services that result in an order for or administration of a COVID-19 test and/or used for cost-sharing waived preventive services furnished via telehealth in rural health clinics and federally qualified health centers during the COVID-19 public health emergency
AQ	Physician providing a service in an unlisted health professional shortage area (HPSA)	CT	Computed tomography services furnished using equipment that does not meet each of the attributes of the national electrical manufacturers association (NEMA) XR-29-2013 standard
AR	Physician provider services in a physician scarcity area	DA	Oral health assessment by a licensed health professional other than a dentist
AS	Physician assistant, nurse practitioner, or clinical nurse specialist services for assistant at surgery	E1	Upper left, eyelid
AT	Acute treatment (this modifier should be used when reporting service 98940, 98941, 98942)	E2	Lower left, eyelid
AU	Item furnished in conjunction with a urological, ostomy, or tracheostomy supply	E3	Upper right, eyelid
AV	Item furnished in conjunction with a prosthetic device, prosthetic or orthotic		
AW	Item furnished in conjunction with a surgical dressing		
AX	Item furnished in conjunction with dialysis services		
AY	Item or service furnished to an ESRD patient that is not for the treatment of ESRD		
AZ	Physician providing a service in a dental health professional shortage area for the purpose of an electronic health record incentive payment		
BA	Item furnished in conjunction with parenteral enteral nutrition (PEN) services		
BL	Special acquisition of blood and blood products		

Appendix 4 — Medicare Internet-only Manuals (IOMs)

The Centers for Medicare and Medicaid Services (CMS) restructured its paper-based manual system as a web-based system on October 1, 2003. Called the online CMS manual system, it combines all of the various program instructions into Internet-only Manuals (IOMs), which are used by all CMS programs and contractors. In many instances, the references from the online manuals in appendix 4 contain a mention of the old paper manuals from which the current information was obtained when the manuals were converted. This information is shown in the header of the text, in the following format, when applicable, as A3-3101, HO-210, and B3-2049.

Effective with implementation of the IOMs, the former method of publishing program memoranda (PMs) to communicate program instructions was replaced by the following four templates:

- One-time notification
- Manual revisions
- Business requirements
- Confidential requirements

The web-based system has been organized by functional area (e.g., eligibility, entitlement, claims processing, benefit policy, program integrity) in an effort to eliminate redundancy within the manuals, simplify updating, and make CMS program instructions available more quickly. The web-based system contains the functional areas included below:

Pub. 100	Introduction
Pub. 100-01	Medicare General Information, Eligibility, and Entitlement Manual
Pub. 100-02	Medicare Benefit Policy Manual
Pub. 100-03	Medicare National Coverage Determinations (NCD) Manual
Pub. 100-04	Medicare Claims Processing Manual
Pub. 100-05	Medicare Secondary Payer Manual
Pub. 100-06	Medicare Financial Management Manual
Pub. 100-07	State Operations Manual
Pub. 100-08	Medicare Program Integrity Manual
Pub. 100-09	Medicare Contractor Beneficiary and Provider Communications Manual
Pub. 100-10	Quality Improvement Organization Manual
Pub. 100-11	Programs of All-Inclusive Care for the Elderly (PACE) Manual
Pub. 100-12	State Medicaid Manual (under development)
Pub. 100-13	Medicaid State Children's Health Insurance Program (under development)
Pub. 100-14	Medicare ESRD Network Organizations Manual
Pub. 100-15	Medicaid Integrity Program (MIP)
Pub. 100-16	Medicare Managed Care Manual
Pub. 100-17	CMS/Business Partners Systems Security Manual
Pub. 100-18	Medicare Prescription Drug Benefit Manual
Pub. 100-19	Demonstrations
Pub. 100-20	One-Time Notification
Pub. 100-21	Reserved
Pub. 100-22	Medicare Quality Reporting Incentive Programs Manual
Pub. 100-24	State Buy-In Manual
Pub. 100-25	Information Security Acceptable Risk Safeguards Manual

A brief description of the Medicare manuals primarily used for *HCPCS Level II* follows:

The **National Coverage Determinations Manual** (NCD), is organized according to categories such as diagnostic services, supplies, and medical procedures. The table of contents lists each category and subject within that category. Revision transmittals identify any new or background material, recap the changes, and provide an effective date for the change. The manual contains four sections and is organized in accordance with CPT category sequence and contains a list of HCPCS codes related to coverage determinations, where appropriate.

The **Medicare Benefit Policy Manual** contains Medicare general coverage instructions that are not national coverage determinations. As a general rule, in the past these instructions have been found in chapter II of the **Medicare Carriers Manual**, the **Medicare Intermediary Manual**, other provider manuals, and program memoranda.

The **Medicare Claims Processing Manual** contains instructions for processing claims for contractors and providers.

The **Medicare Program Integrity Manual** communicates the priorities and standards for the Medicare integrity programs.

Medicare IOM References

A printed version of the Medicare IOM references will no longer be published in Optum360's *HCPCS Level II* product. Complete versions of all the manuals can be found online at <https://www.cms.gov/Regulations-and-Guidance/Guidance/Manuals/Internet-Only-Manuals-IOMs>.
